Scholarship Application Checklist

☐	Submit your Year 10 / IGCSE Scholarship Application form (more details below)
☐	Parent/Guardian: Submit tuition fee invoice for applicant's current school showing payment/s for 2024-2025

About the *Scholarship* Application Form

The scholarship application form consists of three main sections:

1. Applicant Information
2. Parent/Guardian Information
3. Scholarship Application Section (for applicant)

About the *Assessment* for Admissions Consideration

All scholarship candidates will need to take a CAT4 test and have an interview with a member of our leadership team. These will be organised by the Brighton College (Singapore) admissions team upon application.

Interview: A one-on-one conversation with a Senior Leader to explore your academic interests and goals. This will be held in person at Brighton College (Singapore) or online.

CAT4: The CAT4 takes approximately 90 minutes to complete and will be taken in person at Brighton College (Singapore) or online in a quiet, supervised environment if the candidate is not in Singapore. This test does not require any prior preparation.

The CAT4 (Cognitive Abilities Test – Fourth Edition) is a widely used standardised assessment that helps us understand how students think and learn best. Rather than testing knowledge of school subjects, it measures natural reasoning ability across four key areas:

- Verbal Reasoning – working with words and language
- Non-Verbal Reasoning – recognising patterns and solving visual problems
- Quantitative Reasoning – working with numbers and logic
- Spatial Ability – visualising shapes and how they fit together

Results Notification

All scholarship candidates will be notified of their admissions and scholarship application outcome following the completion of the scholarship application process.
